The Free4Life program provides The Word Network programming, satellite reception equipment, professional installation and ongoing maintenance to U.S. correctional facilities completely free of cost.

As the world's leading urban faith-based TV channel, The Word Network features family friendly entertainment, uplifting ministry shows, top inspirational speakers, the best in gospel music and relevant urban lifestyle programming that resonates with black culture.

Every Free4Life TV program and show delivers hope, motivation, and thought-provoking content to offenders who want to make a change for the better and refresh their perspective of the world and themselves.

**THE**  
**WORD**  
Network

the largest African-American  
Religious Network in the world.

## **Here are some key benefits and features of Free4Life:**

- Quality, faith-based, commercial-free inspirational programming 24/7 from The Word Network, the world's leading urban religious channel, with diverse content which appeals to a multi-ethnic audience.
- FREE of any expense to state, country, private federal jails and prisons. All satellite equipment, dishes and programming are donated to the institution or DOC.
- The channel is voluntarily viewed by the inmates integrated in a facility's television line-up or may be installed in a chapel or day room. Multiple head-ends may be accommodated upon approval.
- Free4Life works seamlessly with other faith and secular channels installed at your facility.
- The Free4Life channel provides an alternative way to deliver religious services to offenders in segregated areas.

Free4Life's positive inspirational TV programming offers daily hope and resolve for offenders and strengthens pro-social behaviors which prepare the inmate to successfully

reintegrate with their communities, reconnect with their families and return to society as law-abiding citizens. Learn more about [The Word Network](#).

Using Ku band satellite technology, Free4Life offers premium urban inspirational TV programming at no cost to all local, state and federal correctional facilities across the nation to assist prison officials in their recidivism reduction strategy and help reduce infractions and violence that is widespread throughout institutions.

The program provides satellite reception equipment and professional installation, customized for each facility's existing television distribution, with free technical support provided by our satellite partner, [Glorystar Satellite Systems](#). There are no subscription fees or extra charges ever!

This is welcome news too many state and government officials struggling to manage limited resources in already strained correctional budgets, many with severe cuts in rehabilitation and educational programs.

The channel is voluntarily viewed by the inmates integrated in a facility's television line-up or may be installed in a chapel or day room. Multiple head-ends may be accommodated upon approval. For inmates who are in segregated areas who cannot attend chapel, our channel provides a way to receive spiritual encouragement they otherwise would not have access to.

Learn more about the [benefits of Free4Life](#).

Available at Corrections facilities ( Tablets & PC )
